

Your Applications are Precious – Your Database Isn't

Mike Waas
Datometry Inc.

STAC Summit London/New York 2016

everybody
hates
databases

love
value proposition
but...

databases
create **silos**

it's
the **applications**
that count

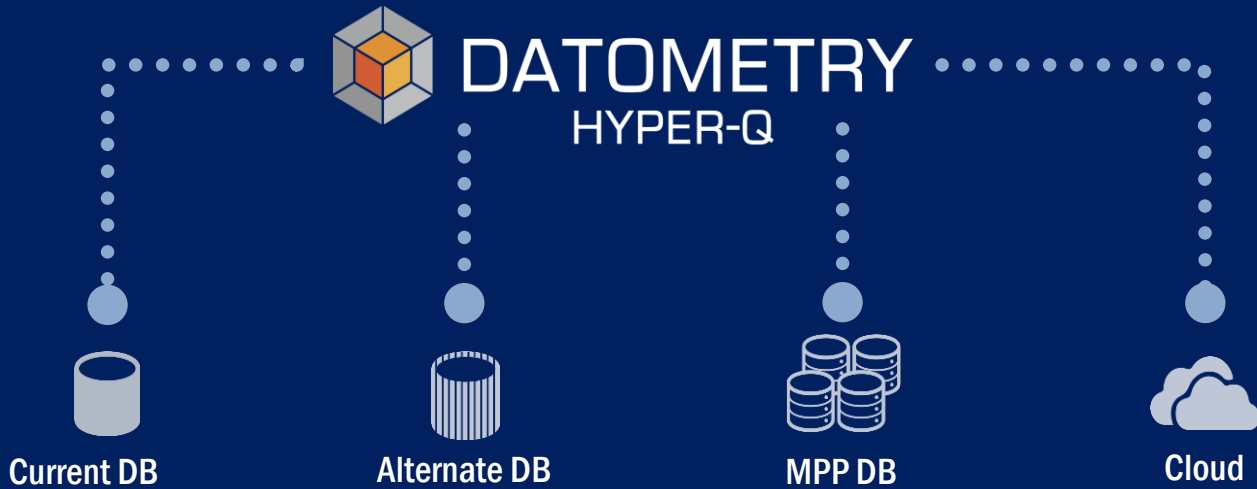

enter
Datometry
Hyper-Q™

Datometry lets database applications run **natively** on different databases

DATOMETRY

HYPER-Q

cloud **AWS**

kdb+

PostgreSQL

Amazon Redshift

Apache Spark

Teradata

Greenplum Database

Microsoft Azure DW

keep
your **applications**

change your
database

adopt new technology rapidly

choose the right tool for the job

break silos and share data

augment existing technology stacks

transfer skills between technologies

thank you
