

Disruption in Portfolio Management = Tech + Data

[qplum.co/documents/aifintech](http://qplum.co/documents/aifintech)

Where is the next 'disruption' happening?

Shannon 1948  
Information in a channel

Markowitz 1952  
(Single period) Mean Variance and  
Correlation base Optimization

John Kelly 1956  
Optimal bet sizing in a multi-  
period game

William Sharpe 1962  
CAPM and Sharpe Ratio

It's always one baby step at a time

Shannon 1948  
Information in a channel

Markowitz 1952  
(Single period) Mean Variance and  
Correlation base Optimization

John Kelly 1956  
Optimal bet sizing in a multi-  
period game

William Sharpe 1962  
CAPM and Sharpe Ratio

It's always one baby step at a time

Yet, it takes years to make a leap...

Vincent (left) and Stephen Della Pietra

Thomas Cover – Universal Portfolios

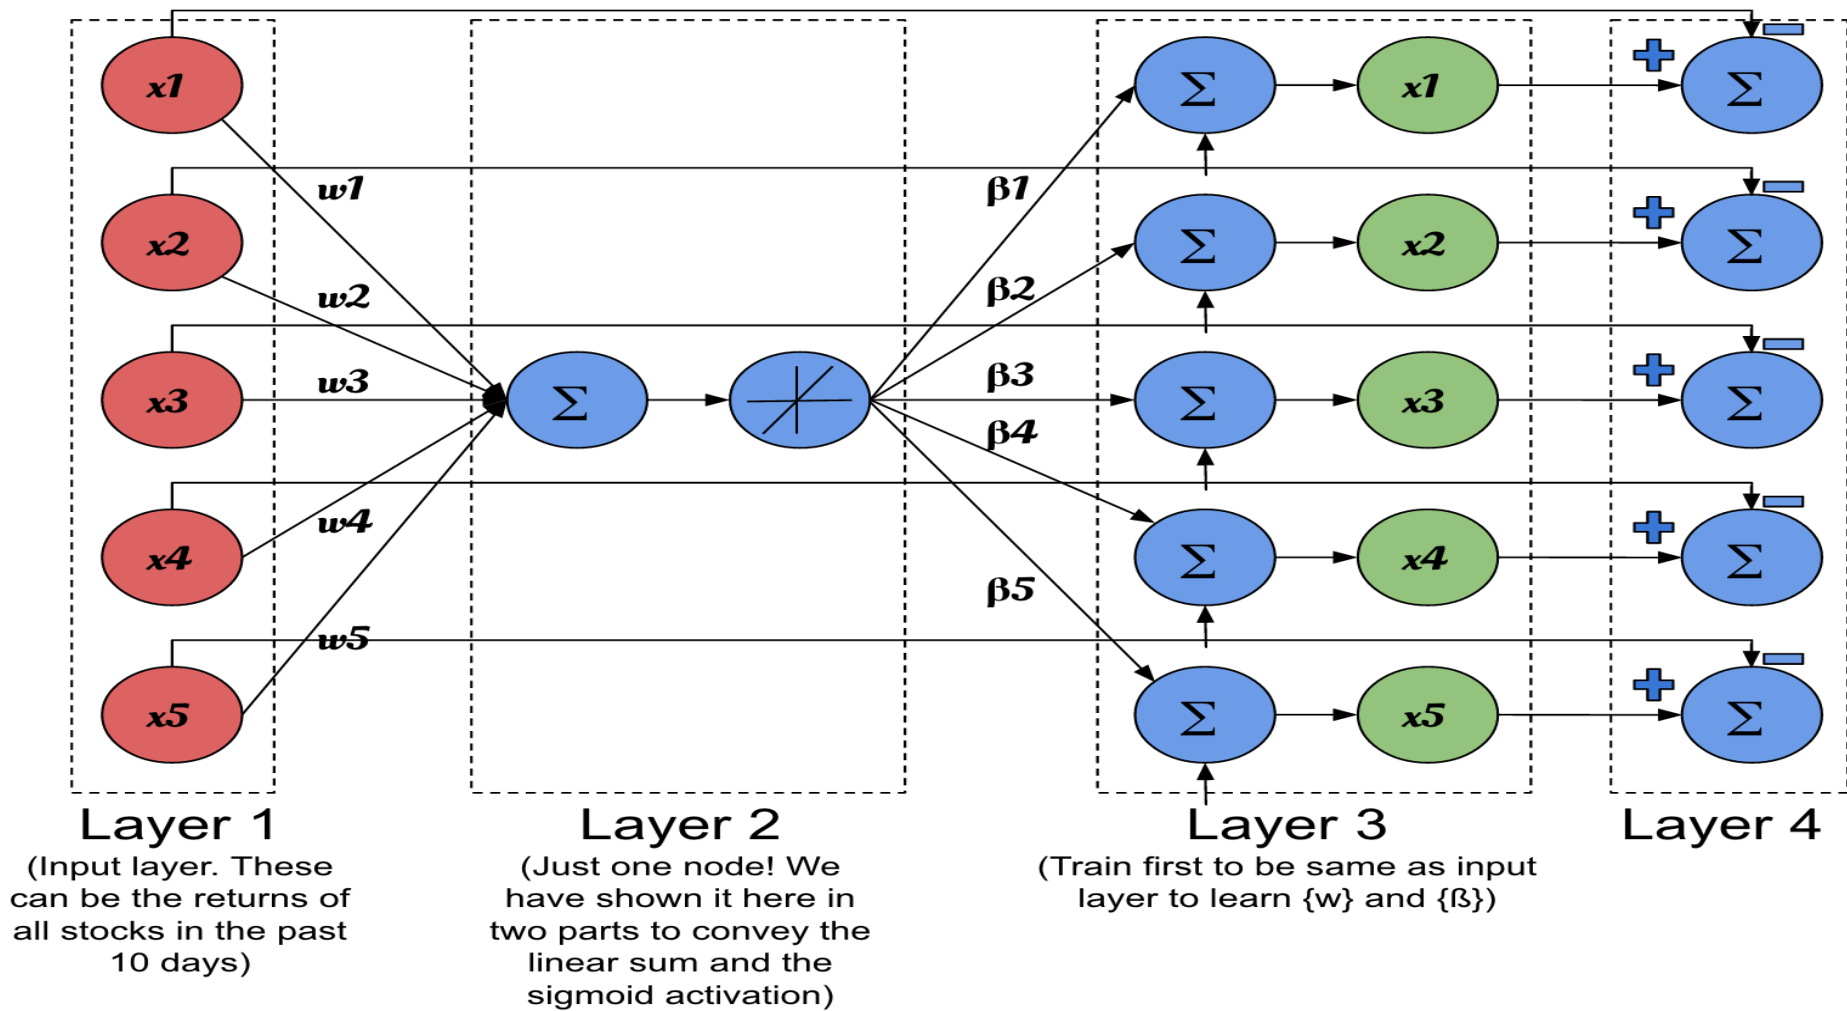

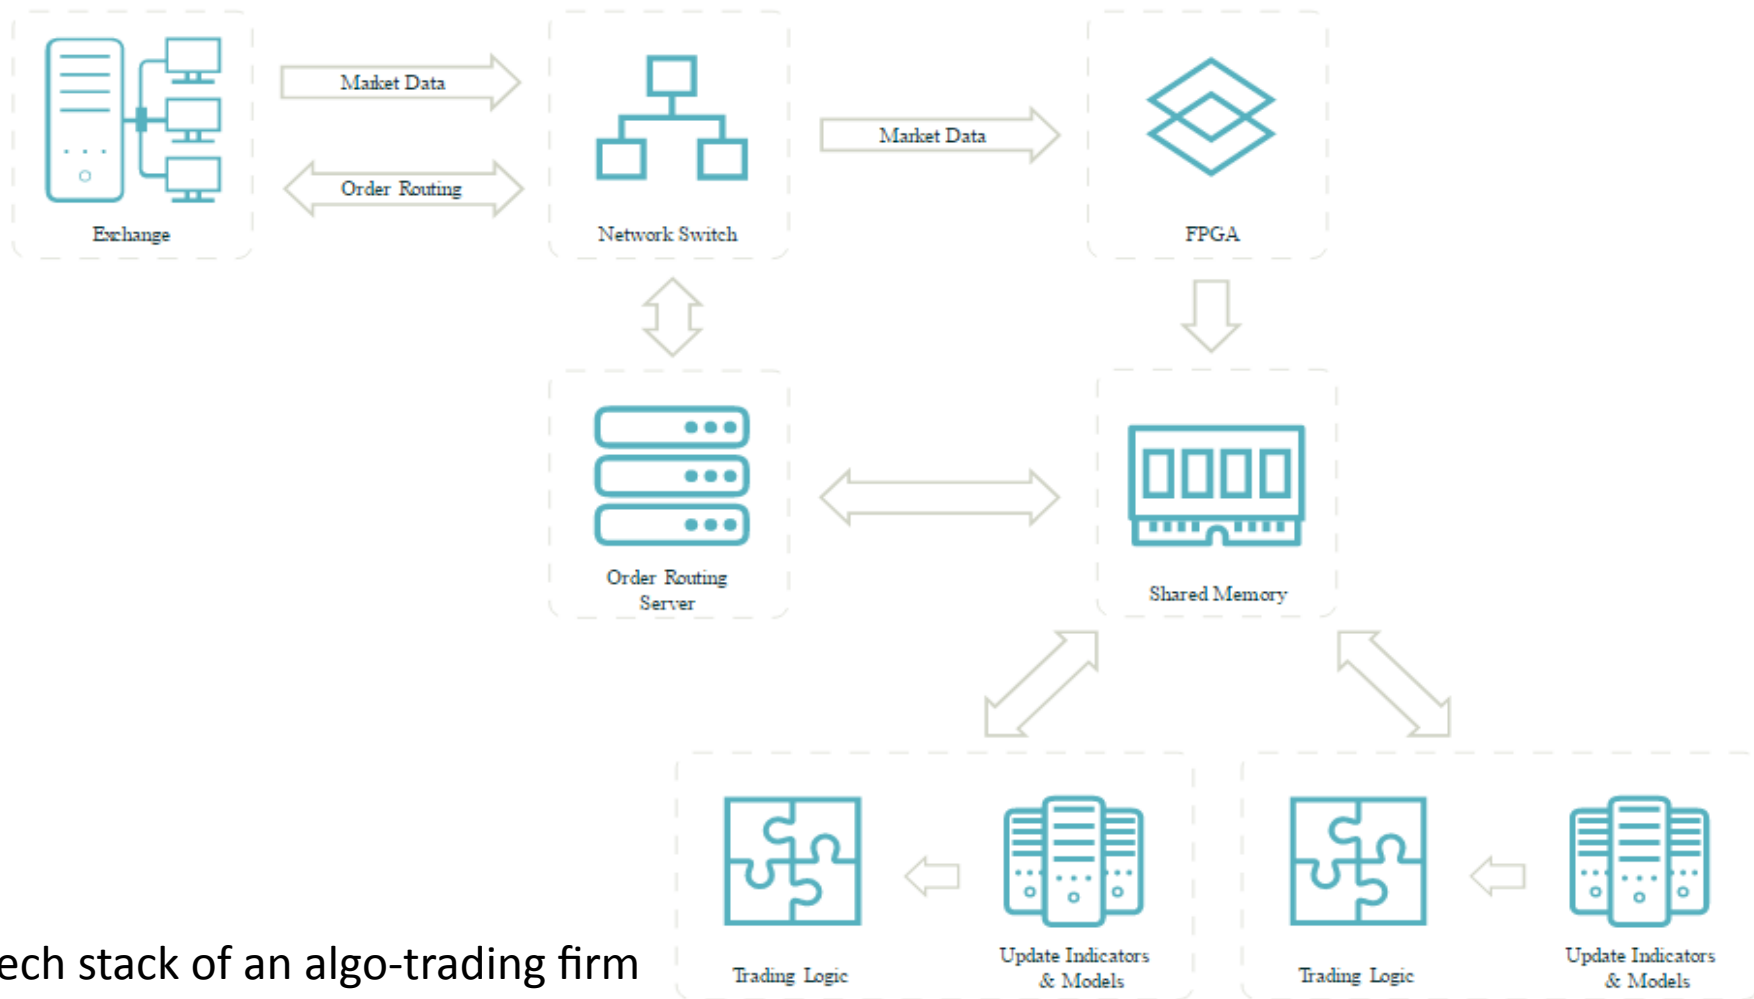

Antti Ilmanen  
Research in Expected Returns

People like Peter Muller and Dennis Stattman whose real work isn't published but they have made great advances in the field and who have shaped the thinking of others.

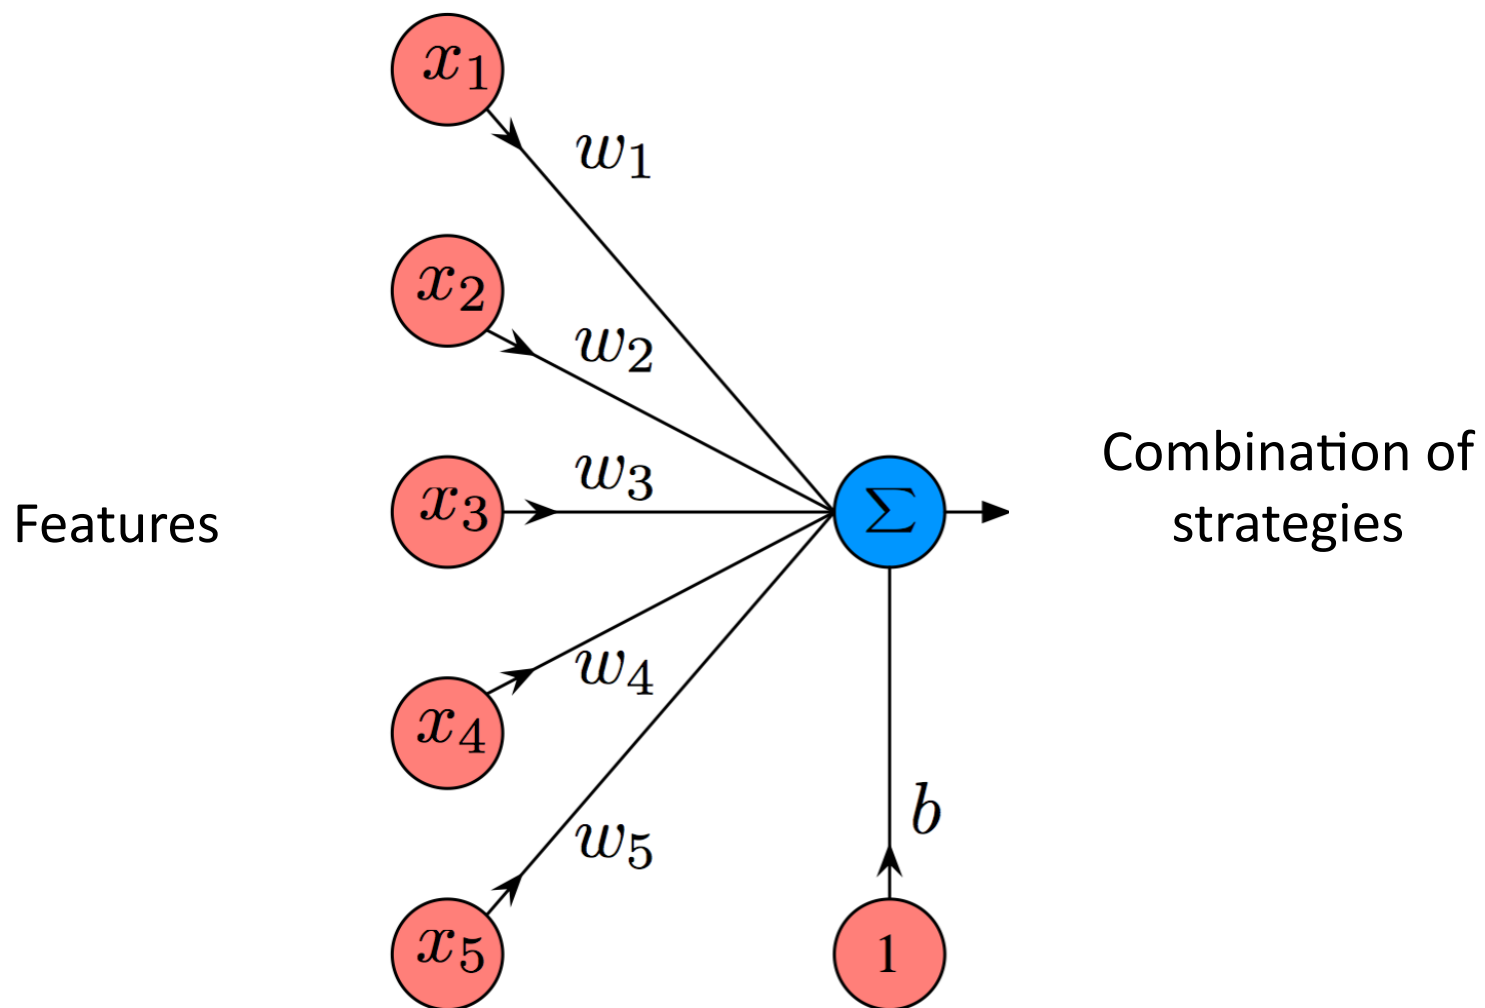

Every lasting improvement in finance has been about learning-from-data and technology

Tech stack of an algo-trading firm

**WHY** is the next 'disruption' happening?

[qplum.co/documents/aifintech](http://qplum.co/documents/aifintech)

The future is fair, it is free, and it is up to us.
